From

Intern

to

Head of Programs & Organization Capacity Development Manager

Stepping into my first managerial role in an NGO has been a transformative experience. As I navigate new challenges and responsibilities, I'm embracing the opportunity to grow both personally and professionally. This journey has been incredibly rewarding, shaping me into a more confident and capable leader.

HEAD OF PROGRAMS & ORGANIZATION CAPACITY DEVELOPMENT MANAGER

As the head of programs, I specialize in guiding teams through the complexities of designing and implementing innovative solutions. By fostering collaboration, accountability, and cost-effectiveness, I ensure that our projects effectively address the pressing needs of the communities we serve.

GOAL

I am very keen on reshaping how we tell our stories as HURIA. I believe we have an innovative and unique model in how we work. This has allowed us to create impact amongst the various community groups that we support. I would like to develop and disseminate these stories so that individuals and organizations can pick on good practices, and hopefully deepen their support to Human Rights Advocacy work at the Coast of Kenya.
